

Our mission is to provide quality products, professional and excellent service to our customers and aim for total customer satisfaction.

# 音銘 私人有限公司 Immco Pte Ltd

## CORPORATE PROFILE

Established in June 2000, Immco Pte Ltd specialises in distributing an array of products & services which commit to value-add our customer in terms of quality, cost-saving, efficiency, safety & productivity.

Headquartered in Singapore, we have expanded our regional presence across Asia Pacific. We are capable to serve a wide range of customers across various industries which include Construction, Forestry, Oil & Gas, Maintenance Repair Operations (MRO), Shipyards, Mining, Marine & Offshore, Railway, Power Plant and Steel Mills.

We represent several reputable brands which have strong global presence and quality products which includes the following:

**Costex Tractor Parts (CTP®)** – New Quality Replacement Parts for Caterpillar® & Komatsu® Equipment

**Hydratron®** – High Pressure Fluid Control Equipment

**DuraJack®** – High Pressure Hydraulic Tools & Equipment

**KuDos®** – Professional Hydraulic Hand Tools

**Betex®** – Assembly & Disassembly Tools for bearings & Drive Components  
(Also known as **Schaeffler Smart Maintenance Tools**)

**JackRam®** – Professional Tools for Automotive & Industrial Applications

Currently, Immco Pte Ltd has established distribution channels under Immco Sdn Bhd and PT Immco Alison Indonesia in **Malaysia** and **Indonesia** respectively, close to our customers to cater their needs and requirements.

**COSTEX TRACTOR PARTS CTP®** is a worldwide quality supplier of new replacement parts for Caterpillar® and Komatsu® Equipment. Besides offering premium parts, CTP also provides exceptional service, outstanding savings, and the support needed to get orders out quickly and accurately. **IMMCO** became the **Authorized Distributor** and **Stockist** for CTP in 2010.

**CTP PARTS** are put through a rigorous quality control inspection process to ensure quality consistency and guarantee maximum performance parts to customers. CTP offer "Quality with Value Guaranteed™"

### SEALS & GASKETS

CTP seals and gaskets are made with high technology tools to guarantee an exact dimension and a proper fit, reducing the risk of leakage and increasing operational life.

### ABC GASKET KIT

The ABC Gasket Kit program is designed to consolidate gaskets kits and make it easier for the parts person to order and for the rebuilder himself to quickly identify and organize their seals and gaskets.

### ENGINE COMPONENTS

CTP engine parts are designed and manufactured to work hard as an integrated system. With continual improvement to manufacturing techniques, customers are assured with quality products with the best technology available in the market.

### FILTERS

CTP filters are engineered to provide maximum protection, increase productivity and ultimately save on the operating cost of your machine

### ELECTRICAL SYSTEM

Tested at the facilities, the Electrical Systems are guarantee to work in proper condition. CTP electrical parts are built to last and work in the most extreme environmental conditions.

### POWER TRAIN

Power train components must hold up high impact loads and frequent changes of direction and movements. CTP takes into account all these demands using testing procedures that simulate real-world applications.

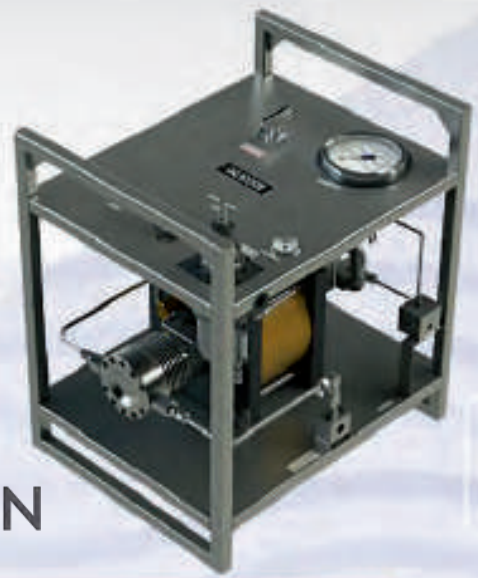

### HYDRAULIC SYSTEM

The Hydraulic system transfers pressure through liquid to drive hydraulic machinery in the lifting of an object. CTP hydraulic parts help increase the force to get the desired power needed to operate your machine.

### OTHER PRODUCT CATEGORY INCLUDES:

- Cooling System
- Braking & Steering
- Hardware
- Fuel Injection
- Undercarriage
- Ground Engaging Tools
- Frame & Body
- Rubber Track
- Operator Station
- Bearings
- Tools & Accessories

# HYDRATRON

A THREE60 Energy Company

Hydratron is the Global Leader in the manufacture of High-Pressure Air Driven Liquid Pumps, Gas Boosters and associated systems. They take pride in its reputation for manufacturing high quality, reliable equipment and its flexible approach to engineered system design, ensuring customers functional demands are always catered for. Immco was appointed the **Authorised Distributor** for Hydratron since 2009.

## PRODUCT CATEGORY

### Air Operated Liquid Pump

- 4 ranges offering output pressures up to 45,800 PSI (3,160 Bar)
- Output flows up to 7 gpm (31.5 Ltr/min)
- Chemical service models available
- ATEX and PED compliant

### Standard Power Packs and Hydrostatic Test

- Incorporating well proven and reliable Hydratron air operated pumps
- Include all necessary controls and instrumentation
- Chemical service models available
- Output pressures up to 45,800 PSI (3,160 Bar)
- Output flows up to 7 gpm (31.5 Ltr/min)
- Electric, petrol and diesel driven units are available

### Air Operated Gas Booster Pumps and Power Packs

- Output pressures up to 21,000 PSI (1,448 Bar)
- Ideal for pressure testing with gases such as air, nitrogen or helium
- Capable of handling hydrogen and methane (special siting conditions apply)
- Ideal for charging hydraulic accumulators or down hole tools
- Numerous laboratory applications

### High-Pressure Valves, Fittings, and Tubing

- Full range of medium and high-pressure valves and fittings available
- Needle, ball, check and safety valves can be supplied from stock
- Elbows, Tees, Crosses, Couplings, and Adaptors make up the fittings range
- Specials can be manufactured to order

# DuraJack®

durajack.com

Your Trusted Hydraulics Provider

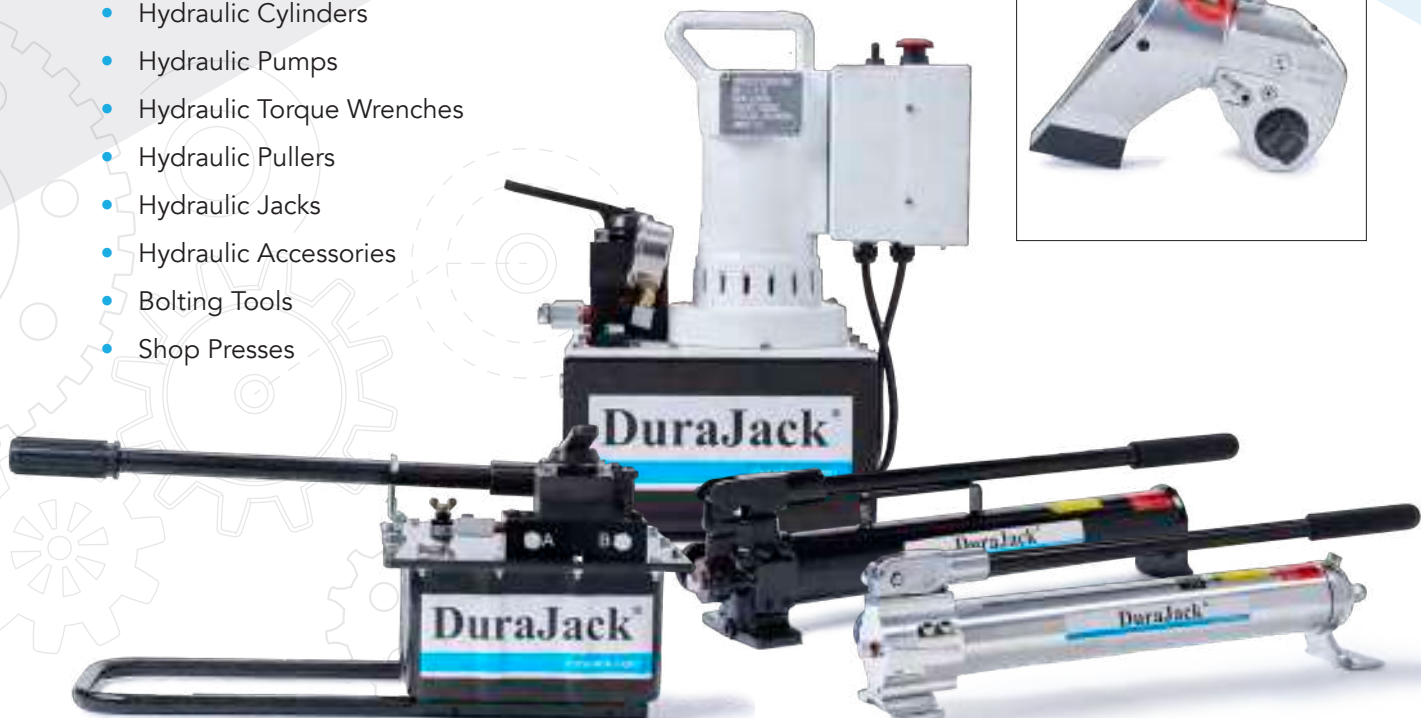

DuraJack offers a comprehensive range of High-Performance Tools & Equipment that are engineered to meet the toughest industrial demands. Trusted across industries including Oil & Gas, Marine & Offshore, Railway, Mining and Ship Building, DuraJack commits to deliver quality products by prioritising safety, durability, and efficiency. Driven by innovation & customers' comments, our products are constantly improved to increase operational efficiency and enhancing overall customer experience.

## Product Category

### Hydraulic Tools & Equipment

- Hydraulic Cylinders
- Hydraulic Pumps
- Hydraulic Torque Wrenches
- Hydraulic Pullers
- Hydraulic Jacks
- Hydraulic Accessories
- Bolting Tools
- Shop Presses

## **KuDos**<sup>®</sup> Professional Hydraulic Tools.

Established as a professional manufacturer of hydraulic tools, KuDos' range of tools include Hydraulic cutters, crimping tools, cable crimping tools, hydraulic pumps and more. All KuDos hydraulic tools are developed using American and European technology which comply with standard of CE, ISO 9001, ISO 14001, IECQ QC 080001 and OHSAS 18000. With years of industry experience, KuDos is constantly developing new innovative solutions to add on new quality tools to their product line. Immco was appointed the **Authorised Distributor** for KuDos Hydraulic tools since 2006.

### PRODUCT CATEGORY

#### Hydraulic Cutter

- Suitable to work with telcom and industrial cables such as ACSR.
- Available in 3 types:
  - Battery operated
  - Manually operated with built-in pump
  - Larger capacity cutter heads connected to external pump (Hand / Electric driven)

#### Hydraulic Crimping Tools

- Applicable compression range up to 1,000 mm<sup>2</sup>, crimping force up to 200 Tons.
- Available in 3 types:
  - Battery operated
  - Manually operated with built-in pump
  - Larger capacity crimping heads connected to external pump (Hand / Electric driven)

#### Nut Splitter

- Size of nut range up to 75mm, splitting force up to 90 Tons.
- Seven models of nut splitters to choose from
- Operated by any hydraulic pump with rated oil pressure of 700 bar (10,000 psi)
- Available in 2 types:
  - Double Blade
  - Single Blade

#### Spreader

- Integrated wedge concept: friction-free, smooth, parallel wedge movement eliminates flange damage and spreading arm failure
- Unique interlocking wedge design: no first step bending and risk of slipping out of joint
- Requires very small access gap of only 6 mm (.24 in)
- Few moving parts means durability and low maintenance

#### More hydraulic powered tools in:

- Hydraulic puncher
- Hydraulic bar bender and cutter
- Pumps
- Chain Cutter

**BETEX** TOOLS  
INDUCTION POWER

Bega International BV in Vaassen, The Netherlands is the manufacturer of Betex Bearing Heaters. Their heaters are used all over the world and in various industries. Immco was appointed the **Authorised Distributor** for Betex Induction Heater in Malaysia since 2008.

## PRODUCT APPLICATION

### Induction Bearing Heating

Induction Bearing Heating is a superior, fast and controlled heating method

- Applicable to bearings, gear wheels, bushes and coupling etc.
- Provides Energy Saving alternative to traditional methods
- Prevents unnecessary damage and retains original lubrication ideal for sealed and pre-lubricated bearings
- Large selection range from 3.6 to 100kVA
- Meets EC and IEC standards

**JACKRAM**  
HYDRAULIC EQUIPMENT ®

Jackram specializes in designing and manufacturing of mechanical pullers for dismantling of all kinds of transmission parts such as bearings, couplings, gears, wheels etc. Their pullers are available as high as 100Ton.

## PRODUCT CATEGORY

### Hydraulic Pullers

- Standard Hydraulic Puller
- Hydraulic Easy Puller
- Separate Hydraulic Puller / Pump
- Universal Bearing Attachments Cross Bearing Pullers
- Hydraulic Pullers with Accessories
